# GERMAN PLAN FOR STARVING NATIONS SEEN

(Continued from Page One)

rush shipments of bread grain to Switzerland is threatened by the action of German submarines which, according to now fully confirmed reports from Switzerland, have made a start on a new policy of ruthlessness by sinking the neutral Spanish steamer Sardinero. The torpedoing of the Sardinero carrying nearly 4000 tons of cereals for Switzerland, can by no stretch of the imagination be brought within the scope of Germany's proclaimed submarine policy, since the vessel was engaged not in an enemy act, but in a supposedly safe trade for a neutral ship enroute to a port which Germany explicitly promised to leave open a safe passage and was torpedoed outside the prohibited zone.

**Investigated Carog.**  
"To add to the deliberateness of the offense, the Sardinero was destroyed after the submarine commander had made a thorough examination of the ship's papers and convinced himself of the nature and destination of the cargo, so that no plea of a 'mistake' can be entered by Germany. The evident intent and result of the act was to prevent Switzerland whose urgent and immediate need of food is well known to Germany, from receiving the American grain; to destroy a Spanish ship for after-the-war trade and to raise by this much the relative value and importance of each German ship afloat at the end of the war.

"By the Swiss-American agreement of December 5th the allies guaranteed to Switzerland for its admittedly urgent needs and eight months' supply of 240,000 tons of cereals, subject to the assumption that Germany would safe-conduct the supply ships as specified in its proclamation on ruthless submarine warfare, which provided a safe route to the Mediterranean port of Cete and promised that submarines would not molest such vessels.

"It is hoped Switzerland and other neutrals will contrast the respective attitudes of Germany and the United States toward the problem of feeding the neutrals and will take due notice of this latest attempt of Germany to intimidate neutral ship owners, through ruthless submarine warfare, from carrying food to Switzerland. They will also note the same German spirit toward Holland, which Germany seems determined to prevent receiving food supplies except upon German terms."

# WOMAN ON TRIAL FOR ATTEMPT TO BLACKMAIL MAYOR

(By Review Leased Wire)  
ATLANTA, Ga., March 14.—In presenting its case today against Mrs. Margaret Hirsch, charged with attempting to blackmail Asa G. Candler, Atlanta's multimillionaire mayor, for \$600,000, the state relied upon virtually the same witnesses who testified at the trial of J. W. Cook, a real estate operator indicted jointly with Mrs. Hirsch. Cook was convicted two weeks ago and given the maximum punishment in Georgia for a misdemeanor—a sentence of one year and one day at hard labor on the chain gang, and a fine of \$1,000.

The mayor, who was the first witness, told of Mrs. Hirsch's visit to his office. He denied that he made improper proposals to her and said that after she had removed her coat and hat he left the office meeting Cook at the door. Forest Adair, who acted for the mayor in negotiating with Mrs. Hirsch and Cook, testified that the woman had told him that the mayor had "fondled" her in his office and that she had reclined on a lounge and then she saw some one at the window. The witness said the woman had asked for \$500,000 for herself and \$5,000 to pay her husband's debts.

# HOG ISLAND PLANT MANAGER DEFENDS HIGH WAGES PAID

(By Review Leased Wire)  
WASHINGTON, March 14.—A general defense of the work at the Hog Island shipyard by Walter Goodenough, general manager of the plant, and a statement by Dudley R. Kennedy, head of the yards industrial relations department, that enough dynamite had been found at Hog Island last month to destroy half of the yard featured today's hearing of the senate investigating committee. Mr. Goodenough, whose \$25,000 a year salary frequently has been under fire before the committee, told the senators he did not believe his salary was excessive if his services were accepted as satisfactory. He also defended salaries of other employees. In that connection Senator Nelson of Minnesota, asserted that two high priced officials at Hog Island formerly were in the junk business in Minneapolis at low pay. Mr. Kennedy defended the work done at Hog Island and it was in connection with the difficulties encountered in building the plant that he told of finding the dynamite. Two hundred and forty-five pounds of the explosive were found at different times last month, he said, and only recently 20 pounds were cadvised in one place in the plant. An investigation is now being made by government agents, he said.

# INVESTIGATE WOOL MEN'S ACTIONS TO DETECT HUN PLOT

(By Review Leased Wire)  
NEW YORK, March 14.—An investigation to determine whether certain American wool manufacturers have been parties to a German plot to corner the world's wool market will begin tomorrow under the direction of Morton E. Lewis, attorney general for New York state.

The investigation resulted from a perusal of papers belonging to Hugo Schmidt, a New York banker, now interned as an enemy alien. Schmidt was the so-called "paymaster" in this country for Bolo Fasba, now under sentence of death for treason in France.

Eugene Schwartz, a wealthy wool merchant of New York and Boston, was arrested here February 25, in connection with the wool hoarding plan. He is to be interned.

According to Alfred H. Becker, deputy attorney general, Schwartz was Schmidt's "chief of staff" in matters relating to textiles in this country. It is alleged to have been the intention of Schwartz and his associates to minimize the effects of a possible British economic embargo against Germany after the war by making it possible for German interests to hoard great stocks of wool which might be sent to Germany when peace is concluded.

# GERMAN UNDERSEA BOAT GETS AWAY BY NARROW MARGIN

(By Review Leased Wire)  
LONDON, February 24. (By Mail).—A German U-boat, a pig the crew tried to catch on the deck of a Norwegian steamer, a British destroyer and three boat loads of Norwegian seamen were the principal figures in the tale of an enemy submarine which was "nearly caught" in the Atlantic recently. The story is told in the following letter from Norway.

Our ship, the Siren, was attacked by a U-boat in the Atlantic. She was badly damaged by gun fire and abandoned by the crew, which took to the boats. The commander of the submarine heard a noise aboard the abandoned ship. 'A pig,' he called out to his men. He ordered them to cease firing, commandeered one of the Siren's life boats and sent some of his men over to investigate. They found the pig in a pen on the deck and two of the Germans dragged it out. The pig slipped through their fingers and then there began a pig hunt up and down the deck, the men clutching at the flying pig and falling headlong until the German captain, watching through his binoculars, was doubled up with laughter.

"In fact, he was so much amused that he forgot to keep a lookout, and the horizon when he suddenly awakened to the fact that a war was in progress. Then followed a great scramble to get the men back to the submarine and to get below the surface before the destroyer could get within range. The destroyer might have fired some very effective shots before the German submerged, except that the German captain forced the Norwegians in their life boats to keep close to his ship and between it and the approaching enemy, the submarine got away."

# MINISTER RESENTS ATTEMPT TO TAKE AWAY HIS CHURCH

ELGIN, Ill., March 14.—Five shots fired from the residence of the Reverend Father John J. McCann tonight routed a committee appointed by Bishop Peter J. Muldoon of the Rockford diocese to take charge of the records and property of St. Mary's parish.

Father McCann was suspended as pastor of St. Mary's about a month ago but has refused to leave and is said to have roughly treated the Reverend Gilbert Flynn, who came to take charge shortly after Father McCann's suspension. Nearly all of the 2,500 members of the parish have quit attending Father McCann's church, it is said.

**Sage Tea Darkens  
Hair to Any Shade**

Don't Stay Gray! Here's an Old-time Recipe that Anybody can Apply.

The use of Sage and Sulphur for restoring faded gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

# BOOKLETS SECURED IN FEDERAL RAIDS HELD AS EVIDENCE

(By Review Leased Wire)  
OMAHA, Neb., March 14.—Four thousand copies of "The Finished Mystery" the Pastor Russell publication of the International Bible Students association of Brooklyn, N. Y., were taken here today, when officials from the federal department of justice raided the quarters of the bible students in this city. The books were placed in the custody of the United States marshal for safe keeping. At the same time Wm. Mack, said to be a solicitor for the sale of the books, was arrested charged with violating the espionage act. Mack was released on bail. Other arrests are expected Friday, as several additional warrants have been issued.

The cartoons of books were addressed to C. W. Farwell, a local member of the Bible Students association. Farwell called at the district attorney's office and showed a letter from the publishers of the book advising him to cut out pages 247 to 251 inclusive of the book, after which, said the publishers, no law would be violated by its sale.

# TRAINING TRIPS TO BE REAL SAD THIS SPRING; NO WIVES ALLOWED

Ball players will probably raise an awful row about it, but they are going to leave their wives at home when they start on their training trips this spring. Most all the big league clubs have decided that expenses are high enough this spring and that they can't afford to take the women folks along. This may mean many lonesome hours for the players in the Dixie hotels and it may sadden them more or less, but they'll have to bear up. Few realize the devotion between a ball player and his wife.
